Announcement

Date: January 6th, 2022

To: Ingersoll Rand Channel Partner

Re: ULM2/ULE2 Low Headroom Hoist Discontinued

Through reviews of our product portfolio, we continually look for opportunities to reduce complexity and optimize our lifting portfolio to make sure we provide the best-in-class products to our customers. This announcement is to communicate the discontinuation of the ULE2 & ULM2 Chester Hoists.

While there is no direct replacement for these low headroom hoist models, we do recommend to review our Kinetic Series Manual hoist and our ELK Series Electric hoist product offering to see if these products fit your applications needs.

Please take this time to update your system with this change. For any questions, please contact your local Ingersoll Rand distribution sales manager or call our Customer Service Center at 1-800-483-4981.

As always, thank you for your support of Ingersoll Rand Power Tools & Lifting.
